The variances requested are:

1. Section 82-223(1)(a) & (b) of the Selma Code of Ordinances stipulate minimum lot area requirements of 5,600 square feet and 6,000 square feet for interior and corner lots, respectively. The applicant requests that minimum lot areas be reduced to 5,400 square feet and 5,800 square feet for interior and corner lots, respectively;
2. Section 82-223(2)(a) & (b) stipulate that the minimum lot frontage on a public street for internal and corner lots be 70 feet. The applicant requests a variance that would allow (1) 45-foot lot width for internal lots, (2) 50-foot lot width for corner lots, and (3) 45-foot lot width, measured at the front set-back line, in cul-de-sac lots;
3. Section 82-223(4, 5, & 6(a) & (b)) stipulate (1) front setbacks of 25 feet, (2) rear setback of 20% of the total lot depth, (3) side setbacks for internal lots of the lesser of 10% of the overall lot width or 7.5 feet, and (4) side setbacks for corner lots of 15 feet. At no time, however, may such a projection extend to within five feet of any lot line.” The applicant requests a variance that would allow roof overhangs to extend to within thirty inches of any lot line.
5. Section 82-223(10) stipulates that “Any ground floor exterior wall visible from a street or thoroughfare, public park, or school yard, or siding on another residential lot, shall consist of 75 percent masonry construction.
